SIMPLY ELEVATED

Simply Elevated means making high-performance design effortless. combining technical precision, ease of use, and responsible choices in every detail.

SIMPLE	ELEVATED	ACTIONABLE SUSTAIBLE
Simple Design Modular systems fit standard & non-standard layouts Supports unique shapes and project needs Clean integration into architecture with minimal compromise **Streamlined Production** In-house manufacturing = faster lead times Custom solutions delivered quickly **Easy Installation** Quick, tool-light installation Clear installer docs and support Flat-packed to simplify shipping and reduce site disruption	Precision Meets Performance Products balance acoustics, lighting, aesthetics, and function Engineered for accuracy and reliability **Aesthetic excellence** Seamless connections & hidden fasteners = refined look Clean detailing for elevated design outcomes Multi-Material & System Innovation Smart integration of materials simplifies install without design compromise Maintains high design integrity even with complex requirements **Smarter Processes** Adhesive-free, intuitive systems = faster installs, less mess Cuts install time, waste, and coordination Products balance acoustics, lighting, aesthetics, and function Engineered for accuracy and reliability	**Carbon & Material Impact** First manufacturer of carbon-negative architectural products. Uses recycled PET, biochar, and FSC-certified wood across key product lines. Subtractive manufacturing minimizes material waste from the outset. **Packaging & Logistics** Plastic-free packaging materials. Flat shipping reduces volume, energy use, and emissions during transport. **Local Production** Local production model supports regional sourcing and lower distribution impact.

🧠 Core Positioning

Target: Architects specifying for commercial, education, hospitality and cultural spaces in EMEA

Problem it solves: Traditional acoustic ceilings are rigid, predictable, and compromise visual impact. InfiKnit delivers performance with edge.

Emotional hook: Finally, a ceiling system that understands your desire to create atmosphere—not just compliance.

Functional hook: High NRC, easy install, flexible grid compatibility, design-forward.

	Emotional	Functional	Trust + Proof
1	Design freedom	Easy tile installation	Specs page + certifications
2	Future-facing look	Works with standard grid	Case study: [insert name]
3	Tactile innovation	Acoustic performance	Technical diagrams + sample access

InfiKnit - EX.

	Funnel Stage	Goal	Content Focus (Pillar)	What to Talk About (Speci...	Content Formats	Best Platforms
1	Awareness	Get noticed, disrupt scroll	Material Intrigue + Visual Hook	- "This ceiling is actually knitted."- Unexpected material formats- Bold visuals of texture and depth- Tease: "Guess what this is made of?"	- Short reels- Zoomed macro images- Design moodboards- 3s loop GIFs	IG, Pinterest, PR, Website hero
2	Desire	Build a *want* for it	Creative Freedom + Customisation	- Fully custom colors and modules- 3D visuals with architect-led color systems- "What would you design with this?"	- Color carousels- "Pick your combo" quizzes- Behind-the-design IG stories	IG, LinkedIn, Email
3	Specification	Convert to action	System Fit + Acoustic Use Case	- Fits standard ceiling grids- Acoustic performance specs- Link to download spec sheet- Visual explanation of performance	- Explainer carousel- Link posts to spec sheet- "Install in 3 steps" diagrams	LinkedIn, Website, Email
4	Proof	Deliver credibility	Studio Validation + Metrics	- Testimonials from early adopters- Acoustic lab test visuals- Visual case studies- "Before and after" install timelines	- Studio quote cards- Time-lapse installs- Graphs showing dB absorption	LinkedIn, Web, Email
5	Implementation	Make it easy to specify	Ease + Support	- Highlight grid compatibility- Show install diagrams- Link to talk to rep- Add FAQ to page: "Do I need a new system?"	- Visual FAQs- How-to animations- Install support doc links	Website, Email
6	Reach Expansion	Tap new specifier pools	Trend-Forward & Shareable	- Design trends 2025: textile surfaces- Texture = new dimension in ceilings- Pin-friendly visuals	- Trend roundup reels- Top 5 new ceiling textures- "Save this" Pin boards	Pinterest, IG, PR
7	Engagement Loop	Keep it top of mind	Community + Interaction	- Design feedback polls- Share user combos- Archive or roundup: "Top X combos"	- Interactive stories- Email polls- DM quizzes	IG, LinkedIn, Email
